CORPO FREDDO SICUREZZA E COMFORT TOTALE

Il miscelatore termostatico per esterno doccia AIRTHERM unisce al classico blocco di sicurezza l'innovativo sistema "CORPO FREDDO". il corpo del termostatico rimane ad una temperatura che non provoca scottature oppure irritazioni alle pelli più sensibili come quelle di bambini ed anziani.

Installabile in tutti gli impianti domestici standard, il termostatico AIRTHERM grazie alla manopola di regolazione della temperatura posizionata sulla sinistra consentendo così all'acqua calda di scorrere senza riscaldare il corpo.

COLD BODY TOTAL SAFETY AND COMFORT

The thermostatic mixer valve for the external shower AIRTHERM adds to the already standard safety features the inovative COLD BODY system. The body of the valve remains at a temperature which does not cause burns or skin irritations for sensitive skins like children or the elderly. The AIRTHERM external shower valve can be installed in all standard domestic systems, and using the temperature control handle positioned on the left, hot water can be made to flow through the valve without causing the body to get hot.
